JAY GHADIYA

ENTREPRENEUR

Get a business degree. Stepping into a corporate world requires some knowledge, and people will take you seriously with some qualifications.

Learn about successful entrepreneurs. Learn how they started from scratch and reached where they are now.

Expand your network. Find people who have similar aims.

Be prepared for failures. You can't achieve success overnight.

Find an income source while you are persevering. Get a part-time job or something. It will sustain you while you are chasing your goals.

PROFESSIONAL ACHIEVER

Pick a topic you want to excel in.

Developing expertise takes time. Keep pursuing your goal, and don't give up.

You need to practice intensely. *Experts are made, not born.*

Find Good coaches, mentors and teachers. Only an expert can help you become an expert.

INNOVATOR & CREATOR

Think creatively. Try to solve problems with a different approach.

Be fearless. If you are doing something unique, people will question you; They will discourage you. But if you strongly believe in yourself, keep pushing.

Improve communication skills. If you are doing something different, unique, the chances of it getting ridiculed are high. So you should be able to make sense to other people about your idea, your product, etc.
